User Manual

Version: v4.4

Release: December, 2021

PenPower Technology Ltd.

Software User License Agreement

You are licensed to legally use this software program ("the Software") by PenPower Technology Ltd ("PenPower") under this license agreement ("The Agreement"). If you do not agree with any of the provisions in this Agreement, please do not install, copy or use the Software. By using the Software, you are deemed to fully understand and accept the provisions of this Agreement.

1. Intellectual Property

All intellectual property rights in the Software, together with all information and documents included in the packaging for the Software (including but not limited to copyrights), are property of PenPower or have been licensed to PenPower, and are protected by relevant laws and regulations.

2. License to Use

You are authorized to use the Software on one (1) single computer only. You may not use the Software on any other machines other than the said single computer.

3. Authority to Copy

The Software and all documents included with the Software, and copyright thereof, are property of PenPower. You are licensed to make one (1) copy of the Software for your personal backup purposes. All other acts of copying are strictly prohibited. The backup copy shall not be installed nor used while the Software is being used.

You may not sell, lease, disassemble, reverse engineer, copy, translate, adapt or derive the Software, or obtain the source code of the Software by any other means. You may not use the Software for any purposes other than those permitted under this Agreement.

4. Business Users

If you need to install or use the Software on more than one (1) computer, please contact PenPower or our local distributor to purchase a license for the additional use.

5. Privacy Policy

This privacy policy explains what information PenPower may collect about you, how PenPower and other companies may use it, and tracking technologies that may be used to collect information. When you use our sites or our mobile applications (our "apps"), PenPower collect information about you and use it to facilitate and improve our services. PenPower may change this Privacy Policy at any time by posting a revised Privacy Policy on this page or apps download screen and such changes will be effective upon posting.

Information PenPower collect:

- a. Information collected automatically: When you visit our sites and use our apps, PenPower automatically collect and store information about your computer or mobile device and your activities. This information may include:

- Your computer's or mobile device's IP address.
- Technical information about your computer or mobile device (such as type of device, web browser or operating system).
- Your preferences and settings (time zone, language, etc.).
- Your computer's or mobile device's unique ID number.
- Your mobile device's geographic location (specific geographic location if you've enabled collection of that information, or general geographic location automatically).
- How long you visited our sites or used our apps and which services and features you used.

b. Information you choose to provide: You may choose to open an account and provide us with information in order to use certain services or to take advantage of special offers. This information may include your name, serial number and related information of the services, email address, phone number. You may choose not to provide us with any personally identifiable information. But if you don't provide certain information, you won't be able to use some of the services PenPower offer.

How PenPower use your information:

- a. We use your information to provide and improve our services, customize services for you, make special offers, better understand our users, diagnose and fix problems, and sell and display ads that may be relevant to you.
- b. Email Address: PenPower use your email address only to allow you to log in to your account, send you confirmations (of your registration, purchase, etc.), and to send you messages as part of our services. PenPower will also use your email address to respond to your customer service inquiries.
- c. Phone Number: PenPower use your mobile phone number only to send you SMS messages that you've requested.
- d. Advertisers : Advertisers and advertising networks use tracking technologies to collect information about users' computers or mobile devices and their online activities (for example, web pages visited and searches made) as well as general geographic location and use that information to display targeted ads to users. PenPower sometimes allow these ad companies to collect such information when you use our sites and apps to enable them to display targeted ads to you.
- e. Legal Matters: PenPower may use or disclose user information: in response to a legal request, such as a subpoena, court order, or government demand; to comply with the law; in connection with a threat of litigation; to investigate or report illegal activity; to protect the legal rights of PenPower, our customers, our sites and apps or users of our sites and apps; or to enforce our rights or defend claims. PenPower may also transfer your information to another company in connection with a corporate restructuring, such as a sale or merger.
- e. Mobile Device IDs: If you're using an app, PenPower use mobile device IDs (the unique

identifier assigned to a device by the manufacturer), instead of cookies, to recognize you.

f. Apps: If you install one of our apps on your mobile device, your use of the app is subject to our app license agreement.

6. Liability

You agree to indemnify PenPower against all losses, costs, debts, settlement payments or other expenses (including but not limited to attorneys fees) arising from your breach of this Agreement, and you agree to compensate PenPower for all of the abovementioned damages.

7. Third Party Offerings

The Software may allow you to access the contents, software applications and data services of a third party, including but not limited to a variety of Internet applications ("Third Party Offerings") and interoperate with them. Your access to and use of any Third Party Offering is governed by the agreed terms and conditions in connection with the offering and the copyright laws of the country the third party belongs to.

Third Party Offerings are not owned or provided by the PenPower. Third Party Offerings may at any time for any reason be modified or discontinued. PenPower does not control, endorse, or accept any responsibility associated with Third Party Offerings. Any agreement between you and any third party in connection with a Third Party Offering, including privacy policies and use of your personal information, delivery of and payment for goods and services, and any other terms, conditions, warranties, or representations of the third party associated with such agreement is solely a dealing between you and the third party. You should take into consideration and shall assume all risks or responsibilities in connection with the use of "Third Party Offerings."

8. No Warranty

Effectiveness of a packaged software in handling information is closely related to its software and hardware environment. The Software is published following careful development and product testing by PenPower, but PenPower is not able to conduct tests based on all possible combinations of software and hardware environment. Therefore, PenPower is unable to promise nor warrant that there will be absolutely no risk of loss or damage of information, or any other kind of loss, during installation and/or execution of the Software. You must be fully aware of your risks in using the Software.

PenPower will provide you with the Software and support services in respect of the Software to the maximum extent permitted by law. However, PenPower does not warrant that the Software and information included in the package of the Software contain no defects or errors. PenPower is not liable for any indirect, special or incidental loss arising from the Software, including but not limited to loss of profits, damage to business reputation, cessation of work, hardware malfunction or damage, or any other commercial damage or loss arising from commercial use of the Software.

9. Limitation of Liability and Damages

Except as expressly specified and expressly agreed to in writing by PenPower, PenPower shall not be responsible for any damage incurred by you for any reason under this Agreement. The maximum amount of compensation payable by PenPower, in respect of any damage incurred by you for any reason under this Agreement, is limited to the amount you have already paid to PenPower in respect of the Software.

Under no circumstances will PenPower be held liable for the possibility of loss, notwithstanding PenPower may be aware of the possibility of such loss.

10.Prohibition Against Sublicense

You are prohibited to assign the license in respect of the Software granted to you under this Agreement, or to grant a sublicense to another person.

11.Jurisdiction

With regards to any disputes arising from this Agreement, PenPower and you agree that the court having jurisdiction over the business location of PenPower will be the court in the first instance.

12.Miscellaneous

In the event that any provision of this Agreement is found to be invalid at law, such invalidity will not affect the validity of any other provisions, or the legal enforceability of such other provisions.

There may be newer versions of the software that was released during or after this product's manufacturing date. If the content in the User Manual differs from the on-screen interface, please follow the instructions on the on-screen interface instead of the User Manual.

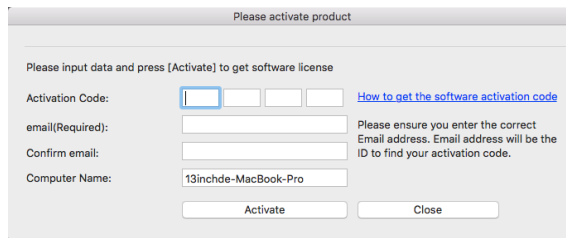

Chapter 1 Getting Started

1.1 Installation

1. If you want to install WorldCard Mac software on Mac system, please open App Store , and keyin [WorldCard Mac] in the search bar to find it.
2. Click [Get] button, and enter your Apple ID / Password to start free download, after downloading, you can find WorldCard Mac software in the system Application.

1.2 Software Activation

For Mac system, please run the WorldCard app, and plug in the scanner, the software activation window will jump out for you to enter the activation code and related information to activate, then you can start to use this product.

If you do not activate, you can create 50 business card for trial. If you are a trial user and are satisfied with this software, please click [Buy] to subscribe it.

If you have subscribed to this software before and it has not expired, please click the menu [WorldCard] \ [Upgrade to Full Version] \ [Restore License] and log in to your Apple ID to restore the software license.

1.2.1 Deactivation

If you used activation code to upgrade to the full version and need to transfer the software license to another computer, please click the menu [WorldCard] \ [Deactivation]

and follow the on-screen instructions to deactivate, then you will be able to use the same code to activate on the new computer.

1.3 Connecting the Scanner

Please plug the USB connector coming from WorldCard Mac scanner into an USB port on the computer. The scanner driver will be automatically installed.

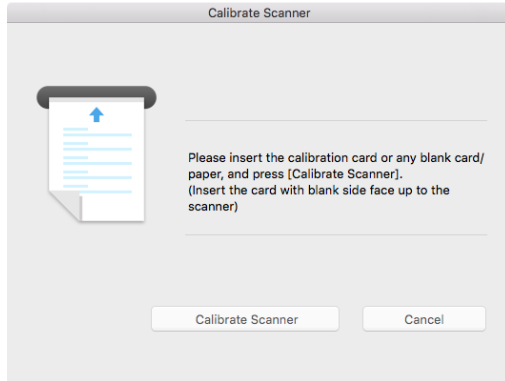

As a notice, please be reminded to pull up the scanner in a way, as shown by below photo, so that business cards can be placed into the scanner. The light will be flashing while scanning is in progress. You may scan the next business card only if the flashing stops and the scanner stepper motor stops functioning.

1.4 Calibrate the Scanner

It's not required for WorldCard Mac scanner to be calibrated for the first time. However it is necessary to calibrate the scanner if there is color distortion or a shaded line in the scanned image after being used for a while. You can click [Tool] / [Calibrate Scanner] and follow the instruction to calibrate.

Note: Please make sure the blank side of the calibration card is facing up when placing it on the scanner. If the calibration card is lost, you may use a piece of blank business card or paper instead.

1.5 Feedback

If you encounter a software error, you can click [Help] / [Feedback] to send the problem description to PenPower Technology Customer Service Department by Email. The system will automatically open your mailbox, and attach the needed information in the letter to analysis and troubleshooting. For more information, you can click on [WorldCard] / [About WorldCard].

Chapter 2 Add a New Contact

2.1 Add a New Contact by Using a Scanner

2.1.1 By Scan Wizard

First of all, please plug the WorldCard scanner cable into a computer's USB port, then you can lift up scanner cover and launch WorldCard Mac software.

After WorldCard Mac is launched, please click  on toolbar, select the recognition language for the front side of the business card. You may check on [Rear Side] and select the recognition language for the rear side of the business card if necessary. You may start scanning the front side of the business card and then the rear side when the light stops flashing from the previous scan. Click [Done] and the Scan Wizard will be closed. The contact information of the business card just scanned will be displayed in the contact list of the main screen.

Tips:

- 1. Auto Scan:** If checked, the scanning will be automatic when a business card is placed into the scanner. The recognition will be performed once the scanning is done. If not, [Scan] button must be clicked to initiate the scan.
- 2. Auto recognition after scanning:** If checked, the recognition will be automatically performed right after the scanning is done. If not, you have the chance to scan again if the image quality is not good and then click [Done] to perform the recognition.
- 3. You can scan multiple cards one by one without exiting Scan Wizard** if both [Auto Scan] and [Auto recognition after scanning] are checked.
- 4. Use  to delete card image and  to exchange the images of the front end and rear end.**

2.1.2 By Direct Scan

After WorldCard Mac is launched, you may place the business card into the scanner with the side to be scanned facing up. The card will be drawn in while the light is flashing and the scanned image will gradually appear on the lower right-hand corner of the screen. The recognition results will be shown in the contact list on the main screen.

When the light stops flashing, you may scan the other side of the card or just click [Skip] to proceed with the next card.

Tips: You can have a proper setup for recognition languages and others by clicking [Set up]/[Scan Options].

2.2 By Manual Input

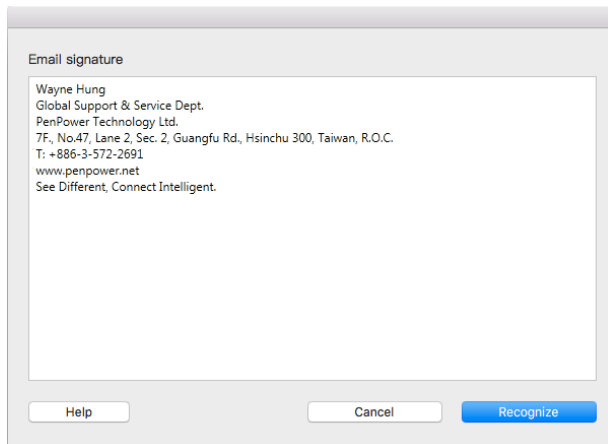

Click [Contacts] / [Add a Contact – Manually] to open a blank edit screen of fields for contact details. You can fill out the fields manually then click [Done] on the lower right corner of the screen to save the information you just entered.

2.3 Add a Contact from the Same Company

Select a contact from the contact list and then click [Contacts] / [Add a Contact – from the Same Company] to open a new edit screen of fields filled automatically with contact info such as Company, Address, Phone, Fax, and Website from the contact just selected. Other fields such as Name, Job Title, and Department are left blank for you to enter manually.

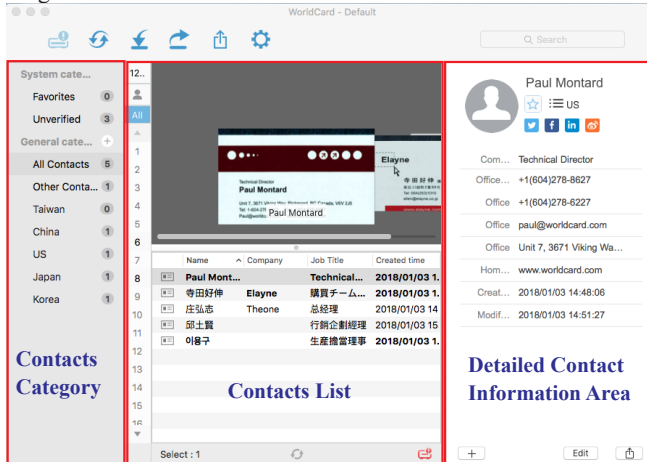

2.4 Add a Contact from Email Signature

WorldCard Mac can add a new contact from the signature of the received email. Click [Contacts] / [Add a Contact – Email Signature] to open a dialogue box for Email Signature. Copy an existing email signature, paste it on Email Signature dialogue box, and click [Recognize] to add a new contact record with contact info from the email signature.

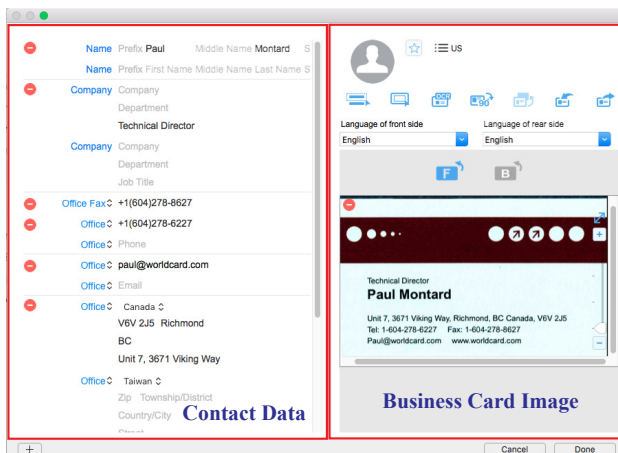

Chapter 3 Edit a Contact

You may add additional information to a contact or revise its recognition result by double clicking a contact from the contact list to enter the edit screen of a contact.

3.1 Edit Screen

There are two sections in contact edit screen. [Contact Data], and [Business Card Image]. Click [Done] on the lower right side of the screen to save the edited work and exit the screen or click [Cancel] to drop the work.

3.1.1 Editing Contact Data

In [Contact Data] section, you may modify the content of any field. Besides, you can also:

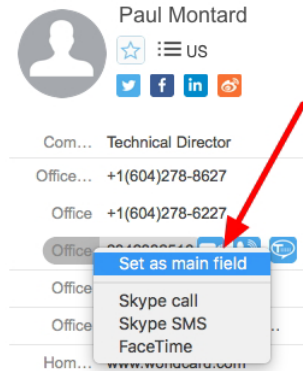

Add a Portrait Photo: Click on the avatar icon to add a portrait photo. Click on the existing portrait photo to replace with a new one or delete it.

Edit User Defined Field: When you want to create the user defined field, click the bottom on the lower-left to add the user Defined Fields, then you can enter those information in the edit page.

Add other Fileds: If you want to add information such as Instant Message ID, EIN number, or anniversary, click the bottom on the lower-left to add the relevant fields.

Tips: If you have multiple groups of names or phone numbers, you can adjust the field data to the field attribute by clicking on a field name of Detailed Contact Information Area in the main page and selecting [Set as main field].

3.1.2 Business Card Image

If there is a business card image, it will be displayed on the lower right-hand side of the contact edit screen. Here is what you can do:

Click and to review the images of the front end or rear end of the card.

Click  on upper right corner of image the to expand the card,  to zoom in, and  to zoom out.

Click  to rotate the card 90 degree.

Click  to load a card image or to scan.

Click  to export the card image to save.

Click  on the upper left-hand side of the image to delete it.

⊙ Partially Re-recognize Contact Data

If the recognition result of a particular field is not correct or incomplete, you can use [Partially Select and Recognize] function to re-recognize this field. Click  first and crop this particular field on the card image with a blue dotted rectangle by holding the left click and dragging the mouse. A pop-up menu will be shown when you release the left click. Select the name of this field and the new recognition result will be assigned to that field. If you select Photo, the cropped image will be shown in the area of avatar icon.

⊙ Crop the Card Image Manually

You can click  to crop the card image by holding the left click and dragging. When releasing the left click, a dialogue box of [Are you sure to modify] appears. Click

[Yes] and the area outside of the dotted rectangle will be removed.

● **Re-Recognize the Card**

Please confirm the recognition languages for both sides of the card first and click  to perform the recognition again. If you want both sides to be recognized again, please check on [Both Sides] and then click [OK].

Tips: If the business card is double-sided, you may click  to exchange the card images.

3.2 Delete a contact

In the contact list, right click on the contact you want to delete and select [Delete] to delete the contact information. Please note that the deleted contact can not be restored, please double check before deleting.

Chapter 4 Manage Contacts by Categories

You can better manage your contacts by placing contacts in different categories. Operations on contacts such as search, print, and import / export can be performed based on category.

4.1 Default Categories

There are four default categories: [All contacts], [Other contacts], [Favorites], and [Unverified]. They cannot be deleted or renamed.

My Favorites: Click  on the Detailed Contact Information Area to add this contact into [My Favorites] category. Click  again will remove it.

Other Contacts: All contacts not placed in any other category will be placed in [Other contacts]. Contacts coming from other software through synchronization are usually placed here.

Unverified: Unverified contacts are shown in boldface meaning they haven't been edited yet. The unverified status will be changed after you edit it.

4.2 Add a Category

There are two ways to add a category:

1. Click [Contacts] / [New Category], and then enter the category name.
2. Click  beside the [General Category] on the left section, and then enter the category name.

Notice : New category cannot have the same name as that of the existing one.

4.3 Assign a Category to a Contact

If you want to assign a category to a contact, please right click on that contact and click on [Change category] from the pop-up menu to open the category list, and tick on the category you want to assign.

In Detailed Contact Information Area, you may also click  to the right of the avatar icon to assign a category to the contact.

A contact can belong to multiple categories. For example, a contact can be in both category “Friend” and category “Supplier”. You can make multiple selections of categories on category management screen.

4.4 Change the Name of Category / Delete a Category

To change the category name, right-click on the category and select [Change category name] to enter a new category name.

To delete a category, simply move the mouse over the selected category, the deleted icon  will appear, and click to delete it.

Reminder: Once a category is deleted, all the contacts in this category that don’t belong to other category will be re-categorized to [Other contacts]. Contacts associated with other categories are still accessible through other categories.

4.5 Adjust the Category Order

When you create multiple categories, you can adjust the most used category to the top to manage and use.

Drag any category with left mouse button long pressed can easily adjust the order.

Chapter 5 Functions for Reaching Contacts

WorldCard Mac provides many functions for reaching contacts. You may send an email, make a Skype call, open a website, and search the contact on the social media.

Tips: Press the Command or Shift key on the keyboard with the left mouse button to multi-select contacts in the contact list.

5.1 Send an Email

To send an email, you can right click on the selected contacts or a category and select [Send Email] from the pop-up menu, then press [To], [CC], or [BCC] button depending on the way through which you want to send the mail to contacts, and then the default Email software will be launch for you to start wrting the Email, and the contacts' Email addresses will be inserted in.

Reminder: The recipient of the Email has a limit on the number, and can only send up to 50 contacts at a time.

5.2 Share Contact Information via Applications

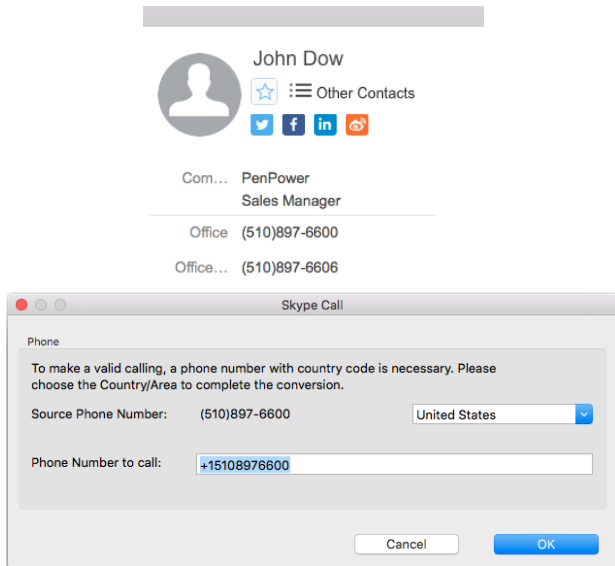

Click  on the toolbar after selecting contacts, and choose [Share via APP] to share the contact information to others via applications.

5.3 Skype / FaceTime

When move the mouse cursor on the phone number information of the Detailed Contact Information Area, the  /  will appear, you click it to make Skype calls or click  to send Skype texts.

You can also right click on the contact to make Skype Calls or Texts

Reminder: Skype software needs to be installed before a Skype call can be made, and you need to have Skype credit to make a Skype-out call. If the phone number doesn't come with the country code, a Skype Call screen will be called up for you to select the country code.

5.4 Open Website / Display Map of Address

If a contact information includes URL of company or any website, right click on the contact and choose [Open Website] can open that webpage. Or move the mouse cursor on the URL information of the Detailed Contact Information Area, then the  will appear, you can also click it to open webpage.

In addition, if a contact information includes any address information, right click on the contact and choose [Display Map of Address], Google Map or Baidu map webpage will be opened for you to use. Or move the mouse cursor on the address information of the Detailed Contact Information Area, the  will appear, then you can also click it to open map.

5.5 Search on Social Network

In the Detailed Contact Information Area, you can click on     icon to search the contact's information on [Twitter], [Facebook], [LinkedIn] or [Weibo] social Networks.

Chapter 6 Searching Contacts

6.1 Keyword Search

You can use keyword search to quickly find contacts. Enter keywords in the search bar  on the WorldCard Mac main page to start the search and list the results. Click  icon to clear the texts in the search field and return to the main page.

6.2 Find Duplicates / Contacts of The Same Name

Click [Contacts] / [Duplicate Contacts] or [Contacts of Same Name] to filter duplicates. If you wish to delete duplicates, click [Delete]. Only one contact will remain for each set of duplicated contacts. If you wish to manually choose which duplicated contacts to delete, right-click the contact and select [Delete].

Tips: When deleting duplicate contacts, system will keep the latest information, in case user delete the information by mistake.

Chapter 7 Sync / Import / Export

Users can use Import / Export / Sync to transfer contacts data to other applications. For example, if you want to use the contacts in System Contact, you just need to export the contacts from WorldCard Mac to System Contact. If you want to edit the contacts on System Contact, just simply sync again after editing to update the latest information on both ends.

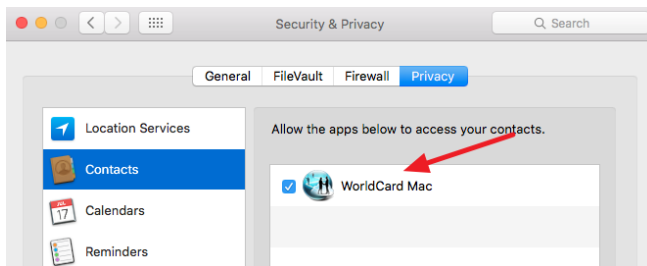

7.1 Synchronization

WorldCard Mac software can update your new or edited data to your system contacts through a synchronization mechanism. Similarly, when updated information is available on your system contacts, just sync again to update data to WorldCard Mac software.

Please click [Contacts] / [Sync] or click  on the toolbar to start, and choose the following applications to sync:

☉ System Contact

The first time to sync, you will be asked to provide authority for WorldCard Mac to access. Please go to [System Preferences] / [Security & Privacy] / [Privacy], Click [Contact] and check the [WorldCard] on the right hand side, then you will be able to sync the data. You can see the progress of the sync at the bottom of the screen.

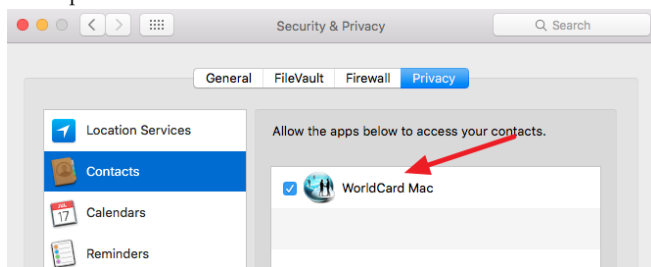

Everytime you launch WorldCard Mac software, it will sync with WorldCard Tem server automatically. If you turn on the auto sync, the system will check every 5 minutes and auto sync between device and server.

7.2 Import

WorldCard Mac provides many sources for you to import contacts to use, please click [Contacts] / [Import], or click  on the toolbar, and choose the source:

- System Contact

Select [System Contact] and click [Next]. You will be asked to provide authority for WorldCard Mac to access. Please go to [System Preferences] / [Security & Privacy] / [Privacy], Click [Contact] and check the [WorldCard] on the right hand side, then you will be able to import the data.

You can see the information at [All Contacts], original category or [Other Contacts] after importing.

- WorldCard Data Exchange File(*.wxf)

Wxf format is compatible with all Worldcard products, it is the best choice to transfer contact data on different operation systems.

Select [*.wxf], click next to choose the local source then start to import; If you'd like to import from cloud storage like Dropbox or Google Drive, please click the [Login] button to log in first. You can see the information at [All Contacts], original category or [Other Contacts] after importing.

Tips: Tick [Keep original category] when importing wxf file, then all category information will be kept.

- Image File (*.jpeg)

Choose [Image File (.jpeg)] and click next. Choose the file to import and select language to recognize. You can see the information at [All Contacts], original category or [Other Contacts] after importing.

○ vCard file (*.vcf)

Choose [vCard file (.vcf)] and click next. Choose the file to import. ; If you'd like to import form cloud storage like Dropbox or Google Drive, please click the [Login] button to log in first. You can see the information at [All Contacts], original category or [Other Contacts] after imprting.

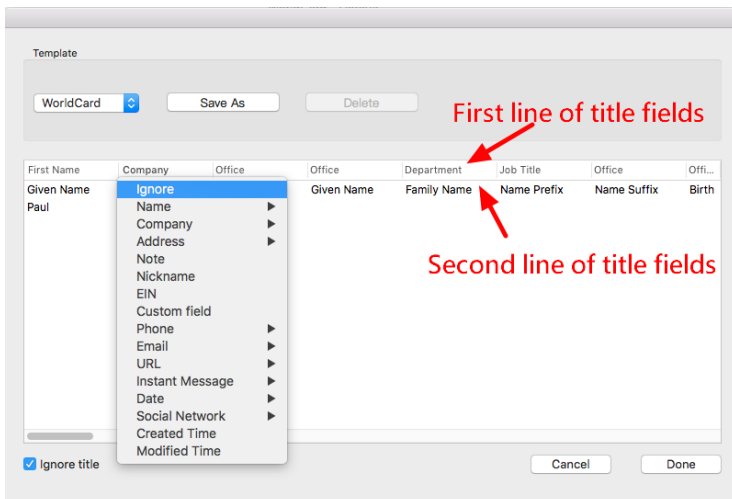

○ CSV File (*.csv)

Choose [CSV file (.csv)] and click next. Choose the file to import. ; If you'd like to import form cloud storage like Dropbox or Google Drive, please click the [Login] button to log in first.

The second line of filed titles on the import screen is the field titles of the CSV file you want to import. You must click on every field title of the first line of field titles and adjust them to match to the second line field titles for the data can be imported correctly.

If your CSV file is from any WorldCard product or from Outlook, you can click the template drop-down menu in the upper left to select the WorldCard or Outlook options to quickly match the field titles.

If you do not want to import some fields, please click on that field titles of the first line of field titles, and select [Ignore], the field data will be ignored when importing. Once completed, you will be able to see the imported contact information in [All Contacts], [Originally Assigned Categories] or [Other Contacts].

Tips: After you fill all the information, you can click [Save As] button in the Template section to save as template for future use.

Caution: If the first row is contact information but not field titles, please tick [Import the first row].

7.3 Export

You can export WorldCard Mac's contact data to a different file formats, depending on the range of your data, such as selecting a few specific contacts or all contacts.

Go to [Contacts] / [Export] or click  on the toolbar then select the target to export, and select the data range below.

Select [All card information], then all contacts will be exported; Select [All cards in the preview area], only the card in that page view will be exported; Select [Selected cards], only the card has been selected will be exported.

System Contact

Select [System Contact] and click [Next]. You will be asked to provide authority for WorldCard Mac to access. Please go to [System Preferences] / [Security & Privacy] / [Privacy], Click [Contact] and check the [WorldCard] on the right hand side, then you will be able to export the data.

Microsoft Outlook

Choose [Microsoft Outlook (2016/2019) / (Office 365)] and select the data range and file path to save, then click [OK] to start exporting, then you will see the exported data in [Microsoft Outlook]. Please note Microsoft Outlook (Office 365) function is additional service which needs to be subscribed.

☉ WorldCard Data Exchange File(*.wcf)

Select [WorldCard Data Exchange File(*.wcf)] and the data range to export, and then specify the directory path or cloud storage to export the wcf file.

☉ Image File(*.jpeg) / Microsoft Excel(*.xlsx) / Text file(*.txt) / CSV File(*.csv) / vCard File(*.vcf)

Choose the target you need, and select the data range and file path to save, and click [OK] to start exporting, you will see the exported file in the assigned location. In addition, when exporting CSV or Excel format, you can choose whether to divide the address data into five fields (country / province / street ...).

Tips:

1. You can select the contacts on the contact list, and right click on them to export.
2. For CSV format, you can choose two different formats to export: Google Contacts / Mac Contacts vCard (Unicode) and MS outlook vCard (ANSI).

7.4 WorldCard Data Exchange Compatibility List

Import

Item	Version
System Contact	Mac OS X 10.11 and above
WorldCard Data Exchange File *.wcf	all
